

I am one of the employees at Asclepius Drugstore Med lab and Allied Services Corp. for 13 years, with to Doctor's specialist the neurologist Dr. Ma. Daisy Pedroso-Tabuna and pulmonologist Dr. Rollin Tabuena. I started my journey with them last February 2012 when I joined the company.

Dr. Rolin Tabuena, a pulmonologist who specializes in lung conditions. He diagnose and treat diseases of the respiratory system including your airways. Last March 2024, Dr. Rollin booked a ticket for my incentive trip to Vietnam in December 2025. But in gratitude of our Lord, he blessed me and my pregnancy test came back positive.

On November 19th, I had a severe headache, chills, fever, and a seizure. I rushed to The Medical City of Iloilo, Emergency Room. Because my OB-GYNE and my other doctors is not affiliated with that hospital. I was transferred to Iloilo Doctors Hospital. When I arrived there, I was immediately put on ventilator because my seizure and low oxygen level. I was immediately forward to the operating room for an emergency Caesarian Section (CS) at 32 weeks AOG to save me and my baby's life.

Due to my critical conditions, I forwarded to Intensive Care Unit (ICU). Dr . Rollin is my pulmonary doctor, he just arrived from Manila and went straight to hospital to check my health status. I was revived twice because I flatlined twice. No blood pressure, no pulse rate, and no fluid output.

Because my doctor's expertise he did everything for me to live.

I would like to extend my heartfelt gratitude for the compassion and empathy you bestowed upon me during my critical times. Your ability to make me fee heard and understood is truly amazing. Thank you for your support and for making a difference in my life.

Thank you for being there for me and Eiman when we needed it most. Words cannot express how grateful we are to have as our pulmonary doctor. I am forever grateful for your care and support
